

- PRESS RELEASE -

ONLY ONE WEEK!

1,430 IVD EXHIBITORS ARE SET TO GATHER HERE

In the current post-pandemic situation, the global economy is gradually starting to recover. As an important part of the medical device industry, the in vitro diagnostic industry needs to meet and communicate together in order to continue developing their business. CACLP is firmly committed to showcasing the IVD industry by bringing industry professionals together and creating the highest-quality IVD community worldwide.

- *The 19th edition of China Association of Clinical Laboratory Practice Expo (CACLP) and the 2nd China IVD Supply Chain Expo (CISCE) will open its door in one week 26-28 October 2022 in Nanchang Greenland International Expo Center, Nanchang City, China.*
- *The 19th edition of CACLP will focus on the international development and future challenges of the global IVD industry. New technology and innovative ideas will also take centre stage at the show to provide an unsurpassed business platform for the entire industry. CACLP and CISCE will showcase the latest innovations via a range of product displays, scientific talks and industry workshops.*

During the CACLP 2022:

- *A 120,000m² exhibiting space, with a 50% increase over last year, lets you fully enjoy three days of visiting.*
- *1430 exhibitors from almost 20 countries & regions will come together in Nanchang City to show their latest developments. Their products and services cover molecular diagnostics, clinical diagnosis, immunodiagnostics, biochemical diagnosis, laboratory*

equipment/instruments, microbiological diagnostics, disposables/consumables, raw materials, POCT...

- 433 new companies presenting their advanced products & technologies for the first time at CACLP.

BUSINESS TYPE OF EXHIBITORS

- Over 40,000 IVD market players are expected to attend the CACLP exhibition in October 2022: laboratory professionals, medical institutions, manufacturers, schools and students, distributors, agents, investors, entrepreneurs, and other organisations. [<Click here to join them>](#)

At the same time, a series of 20+academic conferences and 110+ business meetings will take place in Nanchang City. Their themes range from experimental medicine, biomedical engineering, molecular diagnosis to pathology, mass spectrometry, blood transfusion, clinical & laboratory and other IVD-related topics. Professionals and influencers have been officially invited to share their experience, knowledge, and opinions on this 4-day IVD industry event.

About GL events

GL events, whose HQ is located in Lyon, was founded in 1978. It is listed on Euronext Paris, Segment B. The core business of GL events covers three business segments, i.e. VENUES (venue management), EXHIBITIONS (exhibition organization) and LIVE (consulting, design and services for events). Through its wide global network of more than 90 offices, with 359 proprietary exhibitions and events, managing 50 venues and serving 4,200 events, GL events is a critical force for the city promotion of 27 MICE destinations. GL events reported consolidated annual revenue of over €1.1 billion for 2019, which ranked a leading position in the industry.

About CACLP

CACLP is committed to building a large platform of production, learning, research, application, education, management, and service, which integrates academic exchange, industry forum, sharing innovations, and the exhibition. CACLP has always followed the belief and tenet of serving the IVD industry sincerely, promoting the continuous progress of the IVD industry, promoting the communication and cooperation within the IVD industry, improving the cooperation with the international IVD industry, and establishing equal communication and cooperation with laboratory medicine experts, experimental medicine experts and IVD entrepreneurs.
